✓ CONFINEMENT : les autorités publiques ont décidé la prolongation de l’état d’urgence sanitaire jusqu’au 08 août 2020. La loi n°2.20.406, relatif à la prolongation de l’état d’urgence sanitaire dans l’ensemble du territoire national, insiste, en outre, sur l’allégement progressif des mesures de confinement sanitaire, en prenant en considération les différences de la situation épidémiologique entre les régions, préfectures et provinces du Royaume.

Tanger Ville est à nouveau reconfinée ce lundi après la découverte de nouveaux foyers de Covid-19 dans certains quartiers, attribués aux regroupements familiaux pendant cette période estivale. Le transport terrestre national sera touché par ce nouveau re-confinement, mais le trafic maritime au niveau de la Marina, Port Tanger Ville et le Port Tanger Med I et II, qui veillent sur les mesures barrières et sanitaires, continueront à fonctionner normalement et sans aucune perturbation. Toutefois, dans l’ensemble la situation sanitaire demeure maîtrisable, sauf que certaines personnes inconscientes violent les mesures barrières en estimant que le danger est dépassé.

Le Ministre de l’Intérieur a imposé l’interdiction de quitter ou de se rendre dans 8 villes du Maroc et ce, en raison de la forte augmentation des nouveaux cas de Covid-19 due aux foyers familiaux et des usines industrielles.

Cette décision a été prise au regard du non-respect par la majorité des citoyens des mesures de prévention, en l’occurrence la distanciation sociale, le port de masque et l’usage des désinfectants.

Toutefois, l’interdiction ne concerne pas tout le monde. Sont exclus les personnes à besoin médicaux urgents, les travailleurs des secteurs public et privé, munis d’ordre de mission délivrés par leurs employeurs et appuyé par une autorisation spéciale de déplacement délivrée par les autorités locales compétentes. À noter que cette interdiction ne s’applique pas au transport de marchandises et des produits de base, qui se déroulent dans les conditions normales et fluides pour approvisionner les citoyens en leurs besoins quotidiens.

Ces nouvelles mesures sont bien entendu préoccupantes et mal accepté par la majorité des citoyens, surtout à la veille de la fête l’Aïd Al-Adha, mais la pandémie Covi-19 oblige.

✓ NON-BUSINESS’ CLOSURE:
✓ BORDERS’ CLOSURE:
✓ OTHERS : l’interdiction du déplacement entre les préfectures et les provinces classées zone 2, sauf en cas de nécessité extrême ou dans le cadre des déplacements des personnes travaillant dans les secteurs économiques ouverts outre le transport des marchandises et des produits de base.

2. Port’s situation (max. 10 lines)

Les ports marocains poursuivent leurs activités dans le respect absolu des mesures sanitaires imposées par les autorités compétentes. Dans les ports de commerce gérés par l’ANP, hors Tanger Med, la communauté portuaire continue à offrir ses services aux acteurs du commerce international. Au 31 mars 2020, le mouvement des échanges a fait ressortir une augmentation de 7,3% par rapport à la même période de l’année 2019, et une hausse de 1,4% de l’activité des conteneurs.

Le marasme économique à l’échelle mondiale et l’état d’urgence sanitaire au Maroc n’ont pas affecté l’activité d’import-export de marchandises au niveau de Tanger Med qui continue à recevoir camions et conteneurs contenant des marchandises à destination et en provenance de l’extérieur.
Par ailleurs, les mouvements des gens de mer des navires de commerce seront autorisés depuis le 20 juin 2020. Toutefois, Ces mouvements, qui sont soumis à l'approbation préalable de la Direction de la Marine Marchande, doivent se faire dans le respect du cadre sanitaire édicté et adopté dans le Royaume.

3. Inland transports’ situation (max. 10 lines)

4. Airports’ situation (max 5 lines)

5. Any import cargo treatment/decontamination (max 5 lines)
