

CESAM

CONTAINERS LOGGING

by **Patrice GILBERT**, General Manager of CESAM

April 29th 2009

CESAM

**Insurers, Shippers, Ship operators, Customs,
Clients, Ports, Security authorities,
Need more and more to know**

- **Which goods?**
- **Where are they?**

And, for insurers, what risk of accumulation ?

Containers with their characteristics :
reference, type of container, owner, ...

Contents with their characteristics :
weight, danger level, insurance value, sender,
destination, degree of urgency...

Characteristics Containers	A	B	C	D	E
1					
2					
3					

Characteristics Containers	A	B	C	D	E
1					
2					
3					

If one needs to know :

- at any time
- for any container
- any of his characteristics

One has to know :

- at every moment
- for all containers
- all their characteristics

CESAM

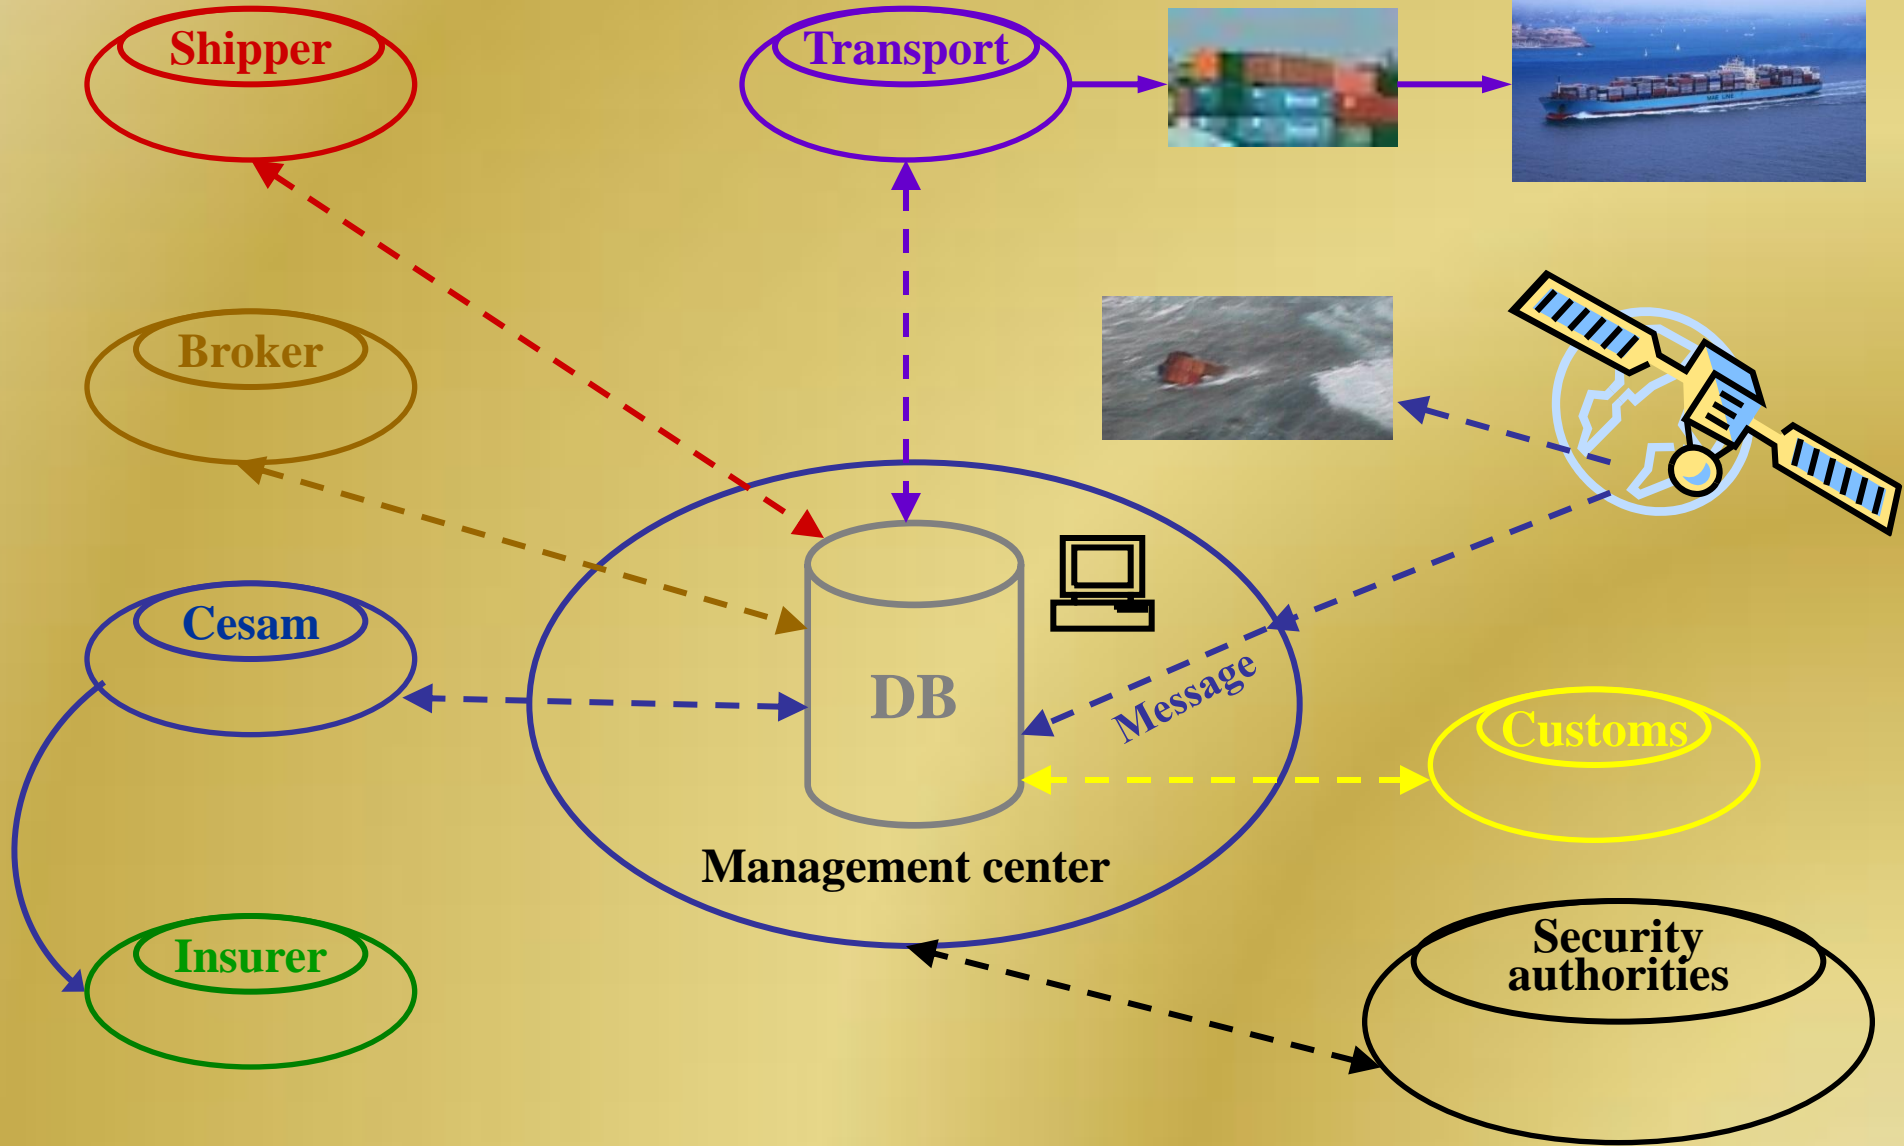

ONLY a system

- **centralised**
- **with access rights fully protected and controlled**
- **for accesses in teleprocess or file transfers**

may help solve the problem of ALL

General scheme

When ?

→ **just now**

Who ?

→ **Group designed for this purpose
(a structure of association)**

How ?

→ **think tank :**

- 1. elaborates rules**
- 2. decides of files content**
- 3. proposes technical choices**

→ **Choice of a third party who manages the files and applies rules.**
