

NEWS - MV Marie Maersk

general average

Dear Sir or Madam,

We have been informed that the shipowners of the MV Marie Maersk declared general average following a fire on board on August 13th, 2025.

The fire occurred off the coast of Liberia while the ship was sailing from Rotterdam (Netherlands) to Tanjung Pelepas (Malaysia). The ship is expected to reach its port of destination at the end of the week for unloading and inspection.

The origin of the fire is unknown at this time. However, some reports suggest that the incident may be linked to one or more dangerous goods that were undeclared or incorrectly declared, or to goods that were improperly prepared for transport.

If you insure or reinsure cargo on board and need assistance in handling any claims for assistance and/or general average, please do not hesitate to contact us.
