THE ANNUAL MEETING
WITH ALL KEY ROLE PLAYERS
OF THE FRENCH MARINE AND AVIATION
INSURANCE ECOSYSTEM

CESAM

THE PARISMAT MEETING

OR HOW TO SHOW THE EXPERTISE OF THE FRENCH MARINE AND AVIATION INSURANCE PLACE ACROSS THE WORLD WHILE ALLOWING YOUNG TALENTS TO GROW.

Organized by CESAM in close collaboration with the Organizing Committee, the Rendez-vous ParisMat aims to highlight the know-how and knowledge of all the players in Marine & Aviation insurance ecosystem operating on the French market.

The Rendez-vous ParisMAT also makes it possible to strengthen contacts with other markets and to highlight the strengths of the French market on the international scene.

Launched in 2009 in Cannes, the Rendez-vous ParisMat has been organized since 2012 in Paris, a world-renowned financial center.

Each year, more than 700 insurers and players (brokers, surveyors, average agents, shipowners, carriers, freight forwarders, logisticians, maritime lawyers, risk managers, French Insurtechs or even teachers and academics) from more than 40 countries, bring together, exchange and debate on developments in the Marine & Aviation Insurance market.

Current topics impacting the sector are presented and commented on, whether they concern international trade, the world of shipping, regulatory developments and those of risks; all aspects that can shed relevant light on the profession.

In June 2023, for two days, different round tables were organized around key themes such as:

- › Marine security, containers lost at sea as well as the theft of transported goods by land;
- › Management of space waste;
- › The maritime and air ecosystem facing the rise in cyber risk;
- › Geostrategic and sovereignty challenges around maritime and space powers;
- › The decarbonization of the air and marine worlds;
- › Sustainability;
- › But also very practical points such as the keys points in wording insurance policies.

The Rendez-vous ParisMat 2023 was also an opportunity to present two important initiatives to save the sea, supported by daring NGOs.

So many keys to tackling tomorrow's Marine & Aviation insurance market together.

Last point which has become tradition, it is also during the Rendez-vous ParisMat that the Student Prize is awarded, rewarding each year the best dissertation written as part of a Master 2, on a subject relating to risks relating to or impacting the activity of Marine & Aviation Insurers. In 2023, research on "Stevedore liability" as well as the Center for Maritime and Transport Law - University of Aix-Marseille – Faculty of Law and Political Science were rewarded.
